

BAUER COMPATIBLE GALVANISED PIPES AND FITTINGS

Heavy duty Bauer compatible pipes are manufactured from the highest grade of steel strip to give a uniform wall thickness that is only available in a quality product. The manufacturing process uses the very latest cold drawn procedures coupled with automated electronically controlled induction welding techniques. Each pipe complete with coupling is hot dipped galvanised in vertical tanks. Connection – Pipework can be connected even if the couplings are not aligned as The ball and socket principle allows, in most sizes, for a 30° articulation in all Directions when using Bauer HK system. Tough – Bauer compatible fittings give a position connection that is suction and Pressure tight up to 20 bar. N.B. All galvanised female fittings are supplied Complete with rubber seal.

Galvanised Pipe, 6 metre lengths

Coupler Size mm	Pipe Diameter mm	Pipe Weight Kg	Wall Thickness mm	Work Pressure Bar
50	50	6.9	0.8	20
76	80	11.1	0.9	20
108	100	20.7	1.0	12
133	120	28.4	1.0	12
159	150	37.5	1.2	12
194	200	53.0	1.3	12

Female Coupler with Hosetail
